Government and the Telegraph. The popular inful should be illisables f the defusion that the telegraph systems been built up ratirely by private only and the statement of the control and t

of the debalon that the tobgraph ayalom has been built up entirely by private capletat and that therefore this capital is entitled to the present large profile, as a reward for the course and venterprise.

Prof. Morre offered his fuvenibut to the present large profile, as a reward for the course and urged the positions of stockers, and urged the positionster-general to can attract and operate tobegraph there is an adjunct of the mail service. The offer was addedited on the ground that "such a thing as framentiting messages from one point to another over a wire was prepositions and largostille." However, Prof. Morse prevailed upon congress to appropriate \$200,000 for an experimental line and with this money the first wire was justiff and operated in America. Thus the tobegraph of the minificence of the government and should have been operated as a part of our postal system from the outsef.

Agair in 1892 congress was invoked to add the extension of the beigraph. A doma of \$200,000, payable ta true installments, was voted to the company organized to hulld the Caclife line. The extension of the telegraph across the continent from lin Missourf river to Sacramento involved the construction of about 1700 miles of polythment of \$250 per, said for the whole line, that the first very considered to the total of the polythment of the stockers of the polythment of \$250 per, said for the wind line, that the first very considered the said of the telegraph across the continual from the construction of about 1700 miles of polythment of \$250 per, said for the whole line, that the first very considered the said the telegraph across the continual from the whole line, that the first very considered the said the whole line, that the first very considered the said tha month, on April 13, 1892, under suspicious circumstances. Decoration day merming the above teams played a game on the Institute grounds which resulted in favor of the home team by the score of 9 to 1. The game up to the static ining was very close, after which time the local team managed loget the lead and shell it in the colo of the game. The audience numbered at least 800, and upplanded both sides heartilly. The leatures of the game were the flebility, bailing and pitching of Whelm. The local team aid not nied in swill as usual, but butled flocity, in bot the game was moded for the heavy batting of both teoms. The local team did not couch as well as they might, in last 11 is one of their week points. The playing of 3. Mextellic floodwin, McDonald and Quinn of the vicilors was worthy of special mention, while Burke. Whalen, Itagley and Reardon of the head leno did not have an error charged to them. The gamed stand proved to be lat the right place for the public. The score:

North Weymouths vs. Mill Streams. The North Weymouths played thei cound gatae this season, on the home nounds, with Mill Streams of Chelsea goomds, with Mill Streams of Unlesses, which proved to be very interesting to the large uttendance present. Nomen of the large uttendance present. Nomen purched the first set tunnings, and was forming the desired in the set of the large properties of the large properties of the large grounds and the support of Pitts, whose catching, as well on thereby pitching, was the best ever seen of these grounds. King and Pitts led the latting for the home team, while Nasana and T. McLangfella did the batting for the Mill Streams. The most effective hairing was done by Lates and Keefe, whose latting for the support of the latting for the latting

HEART CURE.

The New Jersey Democratic state convention met at Treaton Wednesday, the 25th. The mention of Cieveland's name bronght the delegates to their feet and a great wave of cheera swept over the convention. A second later the name of David II. IIIII was hissed. The pintiorm relers to Mr. Cievelsoil as the statemen who belilly took the decisive stap in the way of terif reform, and it leastructs list diseased to the national convention to cast their yole of the state for Grover Cleveland as long as his name is before the convention.

In the Scuste the bill to allow Roston to take land for a new city hall was on-grossed, 45 to 3, with four pairs.

The House deleated after some debate the bill to authorize municipalities to requiate the use of poles and wires with-in highways.

Rather risky—the effect that's made by the proprietors of Dr. Sage's Catarrh Rendey. Risky for them. For you, if you have Catarrh, it's a certainty.

you have Catarrii, it's a certainty. You're certain to be curred of it, or to be paid \$500. That's what they effer, and in good faith—they cure you, or pay you, no matter how bull your case, or of how long standlag. But—is it so much of a risk? They have a medicine that cures Catarrii, not fer a time, but for all time. They're watched it for years, curing the most hopeless cases. They know that in your case there's every chance of success, almost an chance of faithre.

Wouldn't any one take such a risk with such a medicine?

The only unestion is—are you.

The only question is—are willing to make the test, if makers are willing to lake risk?
If so, the rest is easy. You pay
your druggist fifty cents and the
trial begins.

The alliasters at Oil Creek river by the terrible flood of water and latering oil was only less destructive than the great flood in the Commangh valley, became in this case the flood had fewer human beings and less of the property of men upon which to exert its fary. The Contention.

The Republican Convention opened at Minucapolis on Tuesday under comewhat unusual and remarkable elementatures. Up to within a few days there had been practically but one randidate, President Harrison. James G. fluine, the acknowledged lender of the Republican party, who might have had the nomination aimesi without apposition it not by acclamation, had valuatrily—and it would appear most unnecessarily—written a letter to the chairman of the republican mational consultee, explicitly sixing that he would not be a candidate before the convention. Mr. flarison on the debr hand amounced his candidacy manfally and openly and Mr. Blaine continued the trusted cabliet officer, retaining the confidence of file

cence in the plans being made to secure fit assimilation.

The question that naturally arises in the minds of meatmen is, why, with the tide minds of meatmen is, why, with the tide so certainly in his tavor, did Mr. Blalms with the strong letter af withdrawal hast February it he had a dealre loot that nomination. To throw away anofined treasurs and then rry for it to be given back again is more boys 'day and not fit for men and stateamen.

Unless we much misjudge the prevailing sentiment, even the friends of Mr. Blanns are disappedited and teel that his has placed binnsell in the hands of unactupations political managers who are not fits best friends. That the transactions of the past faw days have the flavor of the dishonor-able cannot be denied by the most ardent Blains admirers and their idol has grown less tall in their eyes than he was before. Though there are still many echool-

Sarsaparilla cannot be equalled, and this superiority explains the wonderful

In this way the school hatso ling, seen so other and so constantly present in the pupils' thoughts, than marked influence has several leachers report, upon foreign born children and the children of foreign born parents. One teacher from the west writes:

"Six months ago I was hadly run down and mable to attend to husiness. The principal trouble seemed to be due to indigesion and aggravated dyspepsia. I had no appellie, born parents. One teacher from the west writes:

"Eighty-six per cent, of my scholars were cither born in other countries or ore the rhildren of foreign born porents. The effect of the flag upon my school has been to make avery one of my parplatentimusable Americans. If for any reason the flag is not raised for a day, they claim or for its raising. No more enthusiastic or patriatic set of childrent enhose of my school."

These children begio to feel for American the same patriatic devotion which their fathers were tought from the crudle to manbood, in song and in story, to feel toward the lands from which they came. and what idde act difference in e. Added to this was a nervous distribution. Physicians that if employed talled to reach my case. It grew worse, least flewls and almost hupe. One day I ran across a testimonial for Hood's Barsaparilla staling what it had done in what seemed to be a case sinchr is mine. I got a boille and in three or from days saw that I felt belier. Better I had finished the first bulle, was greatly futures. Rected better

to feel toward the lands from which they came.

This flag increases the children's interest in the school, and this must react upon couloct. Many teacher settify to this. One in Counceticut says, "I notice it is easier to govern the children since the lang was raised." Another in Massarhusette says, "It has been up grand step in our school toward making brave, mainly boys and womanly girls."

It has been praposed that the raising of the flag be one of the exercises in all the public school celebrations on Columbia Day. This arrangement will stimulate all the schools which have not yet raised flue colors to obtain a flag befare

ulate all the schools which have not yet raised flie colors to obtain a flag before that data.

The executive committee of the national Columbian public school celebrational Columbian public school celebration have taken a good step in amnouncing that any school writing to their chairman in Bester, will be given practical suggestions and material aid on how to procure a flag. Nat one public school in America ought to allow itself to be without the stars and stripes on this menuarable occasion.

COLUMBUS DAY, OCT. 12.

A Message to the Public Schools of America.

LOCAL OBSERVANCES SUGGESTED.

Town and Village in the Republic by a Local Celebration of Which the Pah lie School le the Center.

To the schelers of the public schools of the United States the executive con-mities of the Columbian public school celebration sends the following mes-

milice of tage communa protice school message:

The 12th of October, 1892, the 400th annivorsary of the discovery of Amrelen, oughi to be observed everywhere in America.

The dey will be marked in Chirago by the dedication of the Columbian exposition grounds. The dny also may be signelised in every town and village in the regulation of which the jublic schools is the center.

The public schools of the regulation of which the jublic school of the regulation with the uneat fitting centers for all these local celebrations. A netional jublic school observence simultaneous with the Chicago exercises will awaken a popular interest in the coming exposition. Far nurse important is the fact that the public school has the tight to occupy the most prominent place in the criebration. The public school is the one-thiracteristic institution which links all the neighborhoods together, and can thus farnish a common bond far a national colebration. The public school of the entire fruit of the four centuries of American civilization. The public school of today aways the kundred years to roma.

can evinization. The public school et todny eways the kundred years to roma.

Hew it Came Abent.

The first upproval of this anggestion came frem the public school scholars thrinselves. When the pinn was first proposed by The Yenth's Countynation, Jenuary, 1891, thenaands of Iriters were received, testifying to the enthusiasm with which the scholars responded.

The world's congress enaillary of the Columbien exposition then took up the preposal, culling upon all the people of the regulie to elsewre the day in their own localities, and enggesting that the public schools be everywhere the centers of the celebration.

The apperintendents of education were the uext to recognise the filmess of giving te the public schools the first place in this Columbian anniversary. At their nationel convention in Brooklyn in Februery, 1892, they took charge of the ucovernnt, and eppointed the undersigned an eacenilve committee to lead the schools in their commenteration.

What to De.

The first tiding to do is to determine, when you read this message, that you will dualf you can to induce your school to enter the celebration. Then show this message to your tecchers; every patriotic teacher will be glud to help you fly you show yourselves in earnest. Take the message is the school committee and the superintendent—their consent and old are indispensiable.

After you secure the support of all these, then let the school vote that it will enter the celebration.

The uset thing after this public vote will be the appointment of a strong committee made up jointly from cliners, schoinrs and teachers to take charge. The committee should in all cases consist of those most in earnest, so that the work may not be checked by any possible change of teachers during the anumer.

The Programme.

A programme of earches will be furnished by the eacentive committee, it will be simple und adupted to my school, yet so erranged thet mero eleborate exercises may be added wherever desired. The aim of this official programme will be that certain leading exercises may be the seme in every school in the rejubile, and that at least is one feature the Chicage programme and the school pregramme mey be identical. In due tims this cacentive committee will make further anggestions.

will make further anguestions.

The Local Committee.

The duty of your counsittee will first be to interest the citizens and to prepare the school. Frecessions may be arranged. The veterans, both north and south, will gladly be escorts for the schools. The other military, civic and religious organizations of each town will lend their aid if they see that the schools are determined that the celebration shall be worthy of the day. The local gress will be the most valuable of all amounts.

worthy of the day. The local press will be the most valuable of all supports. On Oct. 12 the stars and siripes should be floating from every school home in the regulitic. It is the hope of the friends of common school education that not one public school in the United States will allow liself to be left out in this most memora-hic celebration.

With face that was wan and hagga
With facesteps feeble and slow,
He came to the humble cestage
Where the parple illacs grow.

Homesick and poor end friendless, He had reamed from town in town Sleeping in field or hay left When the chilly sight came down. Thece were few who looked with pity
the poverty's wretched stamp;
Thece were mack who uttered holdly
"He is only a thicking tramp!"

Now he stood by the willow's certage, And sew, through the casement low The and faced daws at her labor Move silently to and fro;

I saw that to hold him fettered Would be to him bliter woe; And so, with my prayers and ble I kleed him, and let him go,

Death must have stilled his Egget When the last kind word was p tool only known what he suffered Or whether he found a friend!

Forgive me, t pray, forgive me! I have slened 'gainst Heaven and thes' iod knows I am no mora worthy The light of thy face to see!" Itut the poor thin form was folded In a mother'e warm embrace. And the lips he had pressed in child Italned kisses upon his face.

Oh, a mother's love! It is stronger Than the beart et man can know; Sin cannot dim its brightness— Time cannot check its flow.

Sirongest of all earth's passions—
Born of a love divins—
Down through the tomb's dark portal
Will its heavenly glory shine.

Royal Baking Powder is shown by actual chemical tests absolutely pure and 27 per cent. greater in strength than any other brand.

Many grocery stores have recently been stocked with second-class brands of baking powder, which are urged upon consumers at the price of the high-cost, first-class Royal.

These powders cost from 8 to 30 cents a pound less than the Royal, besides being of 27 per cent. less strength. If they are forced upon you, see that you are charged a correspondingly lower price for them.

—It has been remerked by those caming here to live frem aurrounding towns, and this not in a spirit of uncharitableness nor of monifest emailty, that as a cammunity we are too stiff in our attitudes toward new concers, comparable rather to no exclusive easte than to a liberal hearted set of people und that is might almost be said of us, as is as saily true in liaston, that our neighbors could live end die and we not knew it until we saw the funeral. Of course the lifet thrust is happily misplaced. Our social system is superior to that of the link in this respect at least. But yet it is true that there is food for much reflection in these impressions and in a statement recently come to mitce that one laily, wha has been among as now for three years, does not yet feel at home and on that certiful footing with the community which a progressive, ap-to-the-times willage ought to make easily resulting a make unaccountable way, came in possession af some matches un Monday, and was quite Abrilliant welding reception was held at the residence of D. Ghlozzi on Sanday, In honor of the marriage of his daughter date to Theodore Ferarn of Hoston, at which place the ceremony was perfermed last Saturday.

cordinal footing with the community which a progressive, aprio-the-tities villages ought to make easily possible in a much less time. One would imagine that neorgial receiving was a very lear article in the morket by its unrivel searcity at our numb to frequent social gatherings. It isn't living to merely eat, work, sleep and real the daily paper. Why not explands some of the buttled up eathusdasm and wission we're been as jeulously guarding and then there will be fewer complaints abeat our non-social qualities.

A Wooderful Cure. Ice create as a medium for brombitia, liphtheria, conker, toualitis, inward ul-

cere, neeplessness and nervous froblanThe value of he cream for certain intestinal troubles is being advanced. Some, indeed most physicians, permit it through
typhoid fever, but always insisting that it
shall be of the pureat make; na corn starch,
gelatine, combeused milk or arrowroot, but
good fresh milk and eggs with some cream.
A story has recently been going the
rounds, in print, of the entire cura of a
woman, who had an unker in the atomach,
by the use of ice cream. Sha suffered from
a serious affection of the eyas, directly
traceable to digestive disturbance, and her
physician finally placed her on ice cream
as a sole diet; for eleven months ab lived
on lee cream, which resulted in an entire
care. Tha theory is, that the cream furnished ample morrishmeet, while the discased intestiacs, chilled from the low temperatare of the flood, are prerented from
getting infianced during the process of digastion carried on by the healthy parts.

Merchaut's lee cream, at East Weymouth, is made from tresh eggs, milk and
creams.

Symptoms. — Dizziness, weariness, with nervous, irresolute feeling, irritability no energy, loss of memory, despondency and low spirits, frembling, caused by slight excitement, sleeplessness, poor appetite, and, frequently, palpitation.

The causes of nervous debility are many: over-work, lack of bodily exercise, insufficient rest and nourishment, absence of amusement, loss of vitality, etc. The results, however, are the same; poor cir-culation of blood, impaired digestion, deranged neryous system; the heart loses force, the stomach, liver, kidneys, and bowels fail to perform their functions. This should not be, when a remedy is ever at land.

New England has become a vast aumoring place for thousands of her some and daughters who, having established homes elsewhere, return to her "lakes and rills, her accolored coast and grantle bills" to did health and recreation for themselves and the little ones. The old homesteeds are often too small to accommodate the different generations. Thus it has beam to be that, nearly everywhere elsa than Weymouth, deer old Weymouth, there has beam established line hords for all conners, and immunerable accluded and select private losarding-hunces with hotel necommodation and home conditions; those are the most cought by the returning some and daughters and their retime, because they want home auromadings and breedom more than the awell and pamp of hotel life. These visitors bring money and illerality into any community they visit, thus creating flourors irring money and liberally into any community they visit, thus creating flour ishing cellvily where there is business because. Weymouth Landing has lon-been neglected in these respects and has suffered nevertingly, while other places less favored with natural advantage. cent of value in property, and hustling cityliy tucking to the advent of the man enmer swallows. in the right direction, which cannot tail of success, as the world failure is unknown to the projector.

Mr. E. F. Linton of New York, formerly of Weymouth, is the man who has curried the "right Hiding in the right place." He purchased the property opposits the "Inticostate," has entirely remodelled it, introduced every modern improvement, furnished it "spick und span" and placed it in charge of a cultivated and experienced lady, and amounces that criedly first-class cummar boothers can be accommodated with home-like surroundings, and with fret-class services. The location, "Wamputock Heighle," is mantpassed for scenic and healthful conditions, overlooking the healthful conditions of looking the healthful conditions of looking the healthful conditions. It has only silves through charating villages and woodland. It has only also become known to be filled with delighted people. The establishment of auch a splendid semi-hotel in our midel reamont but please our realdents who have triends who desire to visit Weymouth and who have herefore been mable to find enitable accommodation. We believe this enterprise is but the harbinger of more to come, and altimately will be the means of awakening Gid Weymouth, (ever 250 years old) from he lethargy.

"No, I never wroth that."

"Will you swear it!" asked the major, sharply.

"Certahuj, I will swear it."

"Ah! Thou—I aso. This check is a forgery, is il?"

"What, ihen, do you mean to de?" asked the widow in trembiling tones.

"Do? What bees every one do who has been deceived by lorgery?"

"Do you mean that you will prosecute my son?"

The major shruaged bis shoulders and looked away.

"Oh, Jourt do that! Anything rather than tho!" cried the ladies together.

"How can I help it?"

"Will you take half the money from me? Indeed, I can? spare any more," said the elder lady, after a lew whispered words had passed between ber and her companion.

"Half! No, indeed. The question is, rather how much morn will you pay rather blan that your root should be sent to penat servitude."

A scream, which the two ladies uttered simultanronsiy, showed that this brutal romard had the desired effect.

"Will you give um fifteen i housand for the check?" asked Cay

"Fitteen thousand? I haven't got half that, I should have to sell one of the millia," cried the widow, clasping her hands.

"Better that, I should thlok, I han—tha siliernal ive," said i he usjor, cooily.

"I'll ell you what I'll do," he added,

after a minute or two spent in relection; "If you will sign a bond tor £15,000, with an agreement to execute a mortgange for that amount over your mills and other property, I'll hand over the cinck to you and say no more about it."

"Oh, Mr. Clay—Maj. Clay. I mean—that's lar too much! I couldn't give as much as that i'll cried the lady almost in tears.

At length the widow agreed to execute such a deed as the major required; and that gentleman despatched a measurger to a friend of this who lived close by, and "who," he said, "knew a little law," to assist bim in drawing up the document. In leas that and hour this was accompilated. Bail the moocy was to be paid in a week, out the reconsider in three months' time. The deed was eigned, and their will be and delivered; the check signed "M. Itoiden," was duly handed over, and the two ladies went away. Bix days passed, and then Maj. Clay wrote in Mrs. Utolien tor the first lustoilment of the £15,000. No anewer was vooches fed to his letter. He wrote again threatening proceedings, as this little espected. It was written by a solicitor; and it stated that the

writer, Abel Jackson, woold be happy to accept aervices on behall of Mrs. Holdan of any writ which his. Clay might think it to lasse.

The major tersed pale on reading this note, and went out to consult with his friend. As the result of this consultance, in a few words he astated that he had a mortgage over Mrs. Holden's property in ELLON, as all he held out the parchment for the sollellor's imapection.

Mr. Jackson rand it very carofully, and handed if hack, merely observing, "Mrs. Holden known authing shout it."

PRAISE GOD, I AM WELL!!

Lewistin, Mr., Oct, 28, 1890.

Dana Sarbardinla. Co. 1—
Gentlemen.—For over fou years t have been a great sufferer with weakness peculiar to my see. I would have for days in time a terrible hearing—chiwa being a campanied by great rehaustion and severe pulls in bursk mind limits. I would go be defaigued, and rise in the morning more exhausted than when I relifed. Ithen after thing I would have a period of Irembilling, notil at last my nerves were in a state of complete prostration. I would have lifte or no appelite. Almost constant furnithete, accompanied by strange sensations, see. Such was my remaition when I first heard of IIANA'S SAIISAPAHILIA. Though I am lout furly three years of age, yet by bart is gray, and I hook like a person near sixty years old.

While visiting my daughter, Mrs. Hordy, in Binngor, Mrs. she persuaded me to try a bottle of DANA'S SAIISAPAHILIA, and In phase her I did so. That build helped me a little. The second one gave me a good appelle, and caused me to rest letter nights. I continued no use it, and sufficient to improve, till I had taken cloven hottles. And, praise Gol, I am WELL; I THAS CIVILII ME! I feel like a new person? I have ideroused in least from nimely one pounds to a hundred and forty-six pounds, and enjoy life once mure. My CASE IS A MIHACLE, and I will do all I can be tell others.

The newspapers still repeal the story of the Kansas cow that was caught up by a cyclore "and heposited on the angle of a reaf, where she could neither fall nor be taken down. So they had to kill her." Now, of course, as she can't "be taken down," they have a head cow on the roof instead of a live one. It is difficult to see what has been gained by the change, in point of fact, if this story were not a cow story it talgitt be taken for a lish story.—Philadelphia Record.

then discribes a famous gun of the Kearsarge.

The famous gun which strik the Alabama stands in the center of the quarter-deck, the first object the eye of the visitor is attracted to. It is highly pollabled, and has the name "Winsboy" on its side in German ext bress betters. This mane was given the gun in complimant to Capt. Winsboy, where annuanded the croiser in her famous tight. Just above the gun, on a brass plate, are the lattle. Below it, on the steering-wheel, are the words "June II, 1884," the date of the lattle. Below it, on the steering-wheel, are the words "Semper Paratus" (id-ways ready). The Winsbow was a 11-inch gun winen it sank the Alabama, but it is now remodeled into an 8-inch risks. In the forward part of the cruiser is a companion gun to the Winsbow, which also took part in the Alabama fight. It is called Thoruton, in honor of the excentive officer of that runne whe was in the engagement. Besides the two famous guns, the Keursarge is equipped with four 9-inch broadside riffes end a 60-pound Parrot riffe in the forecastle.
